Childbirth Educator HUB
by conduxa

Evidence-checked teaching resources, made by educators.

Find slides and handouts for your class. Share your own. The Hub checks every page against published research.

How decks look in the Hub's library · samples

Evidence integrity for everything you teach.

HOW IT WORKS

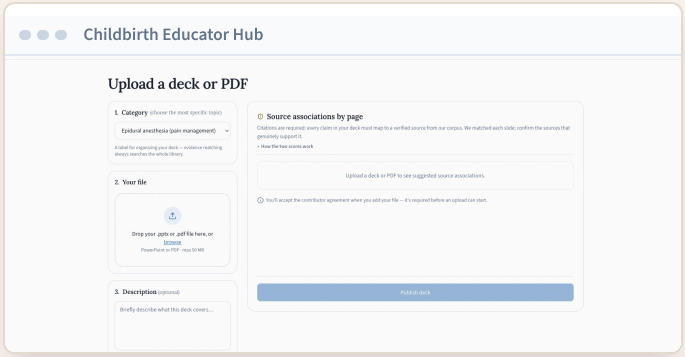

Create. Upload. Check. Publish.

1 Create

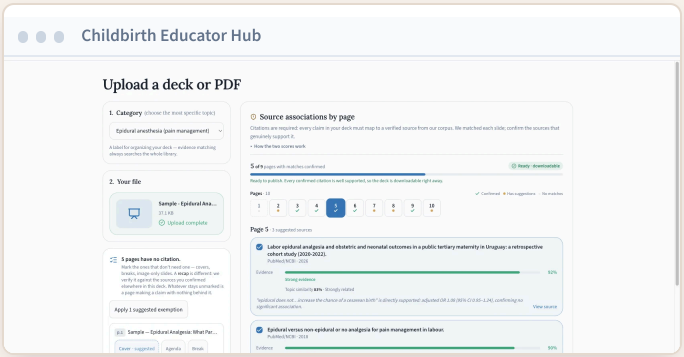

Starting from scratch? Creator Assist builds slides from papers you choose.

2 Upload

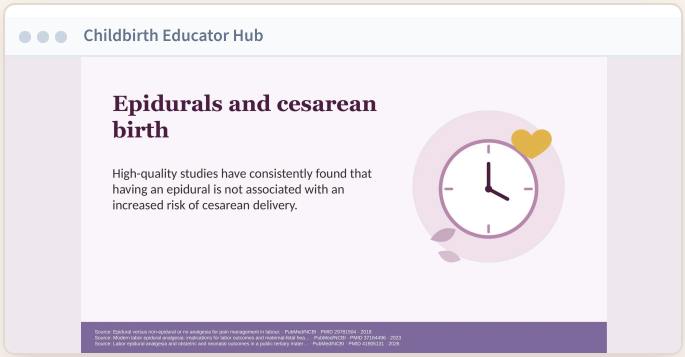

Add a PowerPoint or PDF you made or already teach.

3 Check

See which pages are well supported, and which need stronger evidence.

4 Publish

Every cited slide carries its sources, so anyone can check them.

Weak support? It still publishes. The download waits until you fix it. No gatekeeper.

CREATOR ASSIST

Need help building evidence-backed slides?

Pick a topic, the number of slides, the evidence, and the wording. Then add your final touches in PowerPoint, Canva, or Gemini.

SHARE

Upload and share your best work.

Publish to a library educators and doulas anywhere can find, with sources attached and your name on it. Soon, expectant families too.

KEEP CURRENT

The evidence keeps updating.

The Hub tells you when your slides, handouts, and PDFs need to catch up. People who downloaded your deck get the new version once you publish it.
